-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### Status

## **DETAILED ACTION**

### ***Claim Objections***

Claim 35 is objected to because of the following informalities: Claim 35 depends from claim 34, which is cancelled. Claims 35 is an improper dependent claim.

Appropriate correction is required.

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 12 recites the limitation "said positioning member" in line . There is insufficient antecedent basis for this limitation in the claim. It is unclear whether applicant is, if at all, referring back to a "a positioning *ROD*" or "a first guiding *member*." It cannot be both.

Appropriate action is required.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1-20 and 31-38 are rejected under 35 U.S.C. 102(e) as being anticipated by Serra et al. (US Patent 7,255,702). Serra et al. (hereafter Serra), disclose as

assembly to resect bone comprising a positioning member partially disposed within bone (75), a guiding member (60) that extends from the positioning member and is capable of rotational movement about the positioning member, and extends in a rotational manner. Serra also disclose a resecting member (distal to 70) capable of being rotated about a resecting axis to cut bone, and this is able to translate in a direction *generally along* the longitudinal axis of the bone and *is separate from* and generally proximate to the positioning member. Additionally, as the resecting member can be rotatable around the positioning member, it can be adjustably positioned at various angles (see Fig. 8, and the track created by the guiding assembly). It can create two distinct angles. It is further noted that the connecting portion between 85 and 55 as shown in Fig. 8 can be considered a spacer portion and 65 is considered a second guiding assembly that is considered operable between a first guiding member and a resecting tool.

### ***Response to Arguments***

Applicant's arguments with respect to the pending claims have been considered but are moot in view of the new ground(s) of rejection.

### ***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
